I enjoyed meeting you at the INDABA 2016 gathering of tourism professionals (Inkosi Albert Luthuli ICC) on \*\* 2016, and would like to formally introduce myself and NW Safaris and discuss the potential advantages of working together with \_\_\_\_\_\_ to synergistically (better) serve common tourism clients.

We are an inbound tour and transport operator since 2010 specializing in the Southern African region. As an established operator, we offer made-to-order five-star VIP services across six countries including transfers, safari tours, and custom-made tours to a well-established client base. Potential Customer 1234 Main Street

Re: We're here to help return your money to you. (Everyone needs some extra money — especially when it's their own!)

Dear Mr. Prospect,

I am here to help you get some of your money back.

As an accounting and financial professional here in South Carolina, I've learned (over many years) a lot about financial issues affecting my clients and our community—including the fact that many suffer through foreclosure and tax-sale processes and unwittingly leave their own money on the table.

That's right, a lot of unsuspecting folks leave their own money on the table because they don't understand the process and their rights.

I operate a program that assists people like you recover money they've lost through tax-sale, foreclosure and related processes. The program serves individuals whose property was sold for more than what was due in taxes or under the mortgage—leaving an "overage" floating in legal and financial limbo.

Based on my research, I believe you are one of those people with money sitting in limbo that you don't know about—and my company has the expertise to help walk you successfully through the process of getting it back. We help you connect the dots regarding where your lost money is, who holds it, and how to recover it.

We can help you verify your claim's validity, gather relevant documents, and educate you about the process and steps necessary to successfully recover the funds. We'll also do any legwork and research necessary, and connect you with qualified legal counsel as appropriate when petitioning a court and conducting hearings is needed to secure release of funds held by the court or an escrow agent.

Bottom line is this: we'll do the work required to maximize your chances of getting your money back. You only pay us a small part of the amount we succeed in recovering.

If you would like to learn more about Emmanuel's program to help improve your financial life, we welcome the opportunity to visit, discuss the program and explore the prospect of working together to get your money back. Please call or email me to arrange a meeting at your convenience.

Thanks for your time.

Best regards,
